

*Bill & Sharon Draker, acclaimed nature photographers*

*Encounters with Nature is a program dedicated to expressing the beauty of nature through the eyes of an outdoor photographer. Bill Draker and his wife Sharon have traveled throughout North America seeking out wildlife and picturesque places to photograph. Even though photographing critters and beautiful places from North America are part of their vast repertoire, they do most of their photography in and around South Texas including, but not limited to, birds, mammals, reptiles, insects and other diverse subjects. Bill and Sharon are former members of the Hill Country Camera Club.*
